The limitations include the lack of professional standards for the application of the instruments, the lack of empirical research on the reliability, validity and accuracy of the scales, and the risk of false positives or false negatives, unnecessarily adding to fear of the offender, or underestimating the risk of violence. Table of Contents Kaslow, Foreword. The EFT Casebook. Imprint Routledge. Domestic violence is a serious issue affecting millions around the world. Although documentation of abuse histories can improve evaluations and lead to integrated service responses, such procedures require safeguards so that individuals are not stigmatized or denied therapeutic services on the basis of their case histories.
