WebborrowfromthefieldofinfluenceliteratureSonisandHewingstheideaof  
The nature and characteristics of value chains are determined by the nature of their underlying industries, and the value chains of the two sectors under consideration differ substantially. Post-conflict reconstruction in Angola, for example, has been substantially helped by oil-backed loans from Beijing and Nigeria took out two similar loans to finance projects that use gas to generate electricity. Finally, it is worth emphasizing the potential complementarities between intra-regional trade, integration into the global market and economic development. AdvertisementHide.Citationsperyear.It yields quantitative and qualitative insights general equilibrium effects into trade-offs commonly faced by policy makers when dealing with infrastructure projects in a spatial context.
