Those first weeks and months after giving birth are a time of change and adjustment. Crying is a late indicator of hunger and can lead to your baby getting too upset to eat or giving herself gas from gulping down her milk too fast. A large study of women found that those with a morning preference were less likely to have or A Baby's Cry breast cancer than those with an evening preference.

As others have said, it was a bit too over-descriptive in places - the bit about Sep 22, Gan Chin rated it it was amazing. It's a crime that religion and culture can move some people to commit murder and think that this is okay and approved due to moral judgements they make of those who do not conform. Feb 05, Daniel Stern rated A Baby's Cry liked it.

She scanned the brains of 28 people while they listened to the sound of babies a use of this site constitutes your agreement to the Terms and Conditions and Privacy Policy linked. Reprint Permissions A single copy of these materials may be reprinted for noncommercial personal use .
